# BA. 600VET

Urine Analyzer

# BA. 600VET

Urine Analyzer

## General Features

- 5-inch touch screen
- 11 testing parameters
- 100 samples/hour throughput
- Dual wavelength reflectance test method
- Auto & manual test mode
- Thermal printer, auto & manual print
- Support LIS and barcode
- Less and easy maintenance

## Technical Specifications

Principle: Dual wavelength reflectance method  
Wavelength: 520nm, 640nm, 660nm  
Parameters: Glucose, Bilirubin, Ketone, Specific Gravity, Blood, pH, Protein, Urobilinogen, Nitrite, Leukocyte, Vitamin C  
Throughput: 100 samples/hour  
Sample type: Urine  
Test mode: Auto, manual  
Waiting time: 15-40s  
Display: 5-inch touch screen  
Memory: 2,000 results storage  
Language: English  
Strip: Original strip, 100 strips per bottle  
Report format: Semi-quantitative and qualitative  
Coincidence rate:  $\geq 90\%$   
Power supply: AC 100-240V 50/60Hz  
Working temperature: 10-30°C  
Atmospheric pressure: 86.0kPa-106.0kPa  
Relative humidity:  $\leq 70\%$   
Size: 360mm  $\times$  225mm  $\times$  160mm  
Net weight: 2.5kg
