

## FERTILITY

## LH Ovulation Test Kits

One Step LH Ovulation Urine Test is a qualitative test that can predict when there is a LH surge, and in turn when a woman is likely to ovulate. These test kits can be used in monitoring the ovulation cycle for couples trying to conceive.

### Features

1. Detect LH surge 24-48 hours before the release of fertile egg;
2. 99.5% accurate results in less than 5 minutes.
3. High Sensitivity: 15mIU/ml.
4. Designed for both professional and home users.
5. Single package with CE0123 mark are available for the OTC market.
6. Seven tests are recommended for one menstrual cycles.
