CM-1900P High-end circular polarized chart monitor

High quality polarized LCD screen provides perfectly block for binocular and stereoscopic vision test.

CM-1900C entry-range non polarized chart monitor

This model offers a wide range of charts and tests. Binocular and stereoscopic vision tests can be tested with red and green films.

Efficient optometry system

CM-1900C/CM-1900P can be used not only with the remote control, but also with our CV-7800 computerized vision tester. When the desired chart is clicked on the tablet, the chart of the CM-1900 can be switched immediately, and the corresponding lenses in the CV-7800 can be loaded synchronously.

Wide range of use distance

The reading distance can be selected from 2 to 7 meters, and mirror mode is available for small spaces. The chart size can be reduced or enlarged accurately depending on the reading distance to maintain the same visual angle.
