

Product characteristics

Deionised water system

- ◆ Control system operation modes;
- ◆ LED Controller, Dynamic display working status
- ◆ Water level control, Leakage alarm, Alarm Supplies.
- ◆ Safety performance : water, low water pressure ,
the water is full of dynamic display alarm ,
alarm prompt supplies replacement , repair leaking alarm

Model	JC-1503
Power supply	220V 50Hz
Water pressure	0.8-5bar
Influent water	5-45 °C
Water hardness	<200ppm
Water quality conductivity	<1500us-cm
Water desalination	95%
Water recovery	40-50%
water conductivity	<5us-cm
Aquatic water	15L/h
Water than the resistivity	13-16uΩ-cm
Heavy metal ions in water	<0.1ppb
Water microorganisms / bacteria	<1 CFU/ml
Water particles	>0.22UM: <1/ml
Pretreatment unit	PF + AC + AC
Number of pump power unit	1
Reverse osmosis unit	100GPO RO*1
Rear purification unit	2 deionized column
Storage unit	40L tank (optional)
Instantaneous maximum out of water	1.8L / MIN
Outlet	two manual and automatic control of water
Dimensions	370x180x440
G.W./N.W.	17/15KG
