

NV-100

NEAR VISION TESTER

NV-100 NEAR VISION TESTER

The NV-100 near vision tester enables a complete refractive and binocular vision investigation to be carried out with the head and eyes in their normal posture at any working distance.

The refractive tests include:

- a. Measurement of visual acuity using Snellen letter and illiterate E-chart, and Times Roman reading types.
- b. Accurate determination of presbyopic additions and other near corrections.
- c. Near vision astigmatism tests.
- d. Amplitude of accommodation including monocular measurements under binocular conditions.

	Charts	Use
1		Fixation disparity test (polarized)
2		Cross-Cylinder and Balance test (polarized)
3		Bichromatic Test
4		Foveal Suppression Test (polarized)
5		Fixation disparity test (polarized)

Test Distance	36cm
Remote Control Distance	60cm
Dimensions	220(H)x210(W)x42(D)mm
Weight	780g
Power	LR6 AA/1.5Vx3
